Background

Scott is a highly capable and experienced WHS professional. He has demonstrable capabilities in risk management, consultation, auditing, training and complex risk assessments. Scott's extensive understanding of the Work Health and Safety Act 2011, Work Health and Safety Regulations 2011 and Australian Standards, coupled with his experience in the WHS sector has seen him develop and implement strategies for modern businesses to cope with the stresses created by the maze that can be Work Health and Safety.

Having operated in the NSW Police Force, Scott is a confident communicator and can promptly develop rapport in any situation. He is also capable of undertaking sensitive and multifaceted workplace investigations, including staff interviews following critical incidents. Scott is also a highly respected workplace trainer and assessor for Work Health and Safety. He has delivered numerous Certificate IV and Diploma level courses in WHS, as well as shorter courses such as incident investigation and risk management.

Capability

Scott has been involved in many projects including:

- National Safety Council of Australia – Delivered high level WHS Consulting services, providing solutions in WHS to some of Australia's largest and most recognised brands.
- Delivered both WorkCover and Comcare approved HSR training courses as well as other various level WHS sessions.
- WorkSafe NSW – Provided WHS coaching and advice to various businesses and companies across NSW as part of the Safety Coach Program for all Industries.
- VISY – Conducted site risk assessments as part of a national program.
- Moraitis (food manufacturing) - Steered the restructure of their Safety Management System and its implementation, leading a specialist team of WHS staff on a national basis.
- Namoi Cotton – As a Lead OHS Auditor, implemented a WHS Audit across their business operations and provided training to the company's managers and supervisors on Risk Management strategies and techniques.
- FujiFilm – Conducted plant/equipment risk assessments on machinery to be placed into various customer/retail sites around Australia. ▢ Roads and Maritime NSW – Developed and implemented an Emergency Preparedness training program for RMS' Regional Maintenance delivery business unit.
- LeasePlan – Performed site risk assessments to develop new frameworks and procedures for staff safety in relation to vehicle maintenance equipment.
- Nilfisk – Undertook plant/equipment risk assessments on various equipment for Clientele.
