

Contractor Management – 1 Day Course

Description: This one (1) day face to face course provides practical guidance on how to manage contractual relationships including setting safety standards, tender criteria, ongoing management systems and processes for review - all crucial aspects in demonstrating Due Diligence in this area. It will allow participants to analyse their own organisation's Contractor Management program.

Learning Outcomes:

On completion of this course participants will be able to:

- Interpret legal requirements pertaining to the management of Contractors.
- Identify hazards in the workplace, assess their level of risk and implement controls.
- Understand principles behind an effective contractor management system including:
 - Contractor selection
 - Contractor performance, measurement and monitoring
 - Importance of close out and evaluation.
- Identify possible changes in the work environment and implement controls or buffers to make the change manageable.
- Implement strategies to build a safety culture.

Training Delivery:

This course can be customised by experienced and qualified safety facilitators to suit your organisational needs. It will include a variety of training delivery methods designed for your working environment and to enable participant interaction.

Investment:

On-site delivery costs (maximum 20 participants). Price on application. Discounts apply to Safety Partnership Program members.

Certification:

Participants will receive a Certificate of Attendance.
